

About us

U advisers is a full-service firm based in The Hague, where a close-knit team of around 30 professionals works with one shared goal: helping entrepreneurs move forward. We combine sharp expertise with personal attention, short lines and real involvement. Our way of working? We call it Dedication 3.0. It means we show up, think along, and do more than expected—every single day. With energy, clarity and the drive to keep improving, we turn complex challenges into practical solutions. No-nonsense, forward-thinking and genuinely committed.

We only operate with 1 package:

DEDICATION 3.0

ACCOUNTANCY

Whether driven by legal requirements or the need for clear insights, financial statements should tell the true story of your business. We ensure they are compiled with care; accurate, transparent and always in line with the latest standards. From basic compilations to review engagements, our team supports you in presenting a strong, reliable financial position to stakeholders, investors and regulators alike.

TAX

Tax matters can quickly become complex, but our goal is simple: making sure you never pay more than necessary. From VAT and corporate returns to cross-border tax issues, we help you stay compliant and in control. With sharp insights and practical guidance, we turn fiscal complexity into clear, confident decisions.

CORPORATE FINANCE

Every business decision affects value. We help you understand what your company is worth, where value can be created or protected and how to make smart financial choices for the future. Whether it's about business valuation, mergers, acquisitions or financial planning, we support you with clear analysis, solid calculations and honest advice. From funding to exit strategy, we help you move forward with confidence.

FINANCE & REPORTING

A well-run administration is the foundation of strong decision-making. We help design and optimize your financial processes, integrating automation where possible to reduce manual work and boost accuracy. From setting up accounting systems to delivering interim figures and forecasts, we give you the tools to stay in control. With clear reporting tailored to your needs, your finances become not just manageable, but meaningful.

ADVICE

Running a business comes with challenges that go beyond the daily operations. We advise on strategic decisions, process improvements, risk management, and compliance with laws and regulations. Whether you're exploring a new direction or want to strengthen your foundation, we think along with you, ask the right questions and help you make well-informed choices that fit your goals.

HR

Your employees are at the core of your business and we make sure everything around their employment is taken care of. From accurate payroll processing to solid employment contracts, we handle the details. Need help with complex HR topics like long-term sick leave or the 30% ruling? We're here for that too. So you can focus on your team, knowing the rest is in good hands.
